ASSIGNMENT

FOR GOOD AND VALUABLE CONSIDERATION, AUTOMATIC RECOGNITION & CONTROL, INC. (the "**Assignor**") hereby assigns to **GEORGE, GABEL & CONNERS IMAGING SYSTEMS, INC.**, a Delaware corporation ("**Assignee**") all right, title and interest to the invention disclosed in U.S. Patent Application No. 2006/0050409 A1 entitled "Extended Depth of Field Using a Multi-Focal Lens with a Controlled Range of Spherical Aberration and a Centrally Obscured Aperture" and to all applications that may be filed on such invention anywhere in the world, including any substitute or related applications, to the right to claim priority from the United States of America or other patent applications, and to any letters patent or other legal protections arising from such applications throughout the world, including the right to pursue and obtain any damages, recoveries, or remedies for past infringements of these protections.

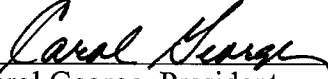

Assignor represents, warrants and covenants that no assignment, license, or encumbrance has been or will be made that would conflict with this Assignment. Any and all other representations or warranties that might apply to this Assignment or the invention described herein are expressly disclaimed.

Assignor agrees to cooperate with Assignee in obtaining and enforcing the Letters Patent or other legal protections, including communicating any relevant information in its possession or control, delivering any relevant documents in its possession or control, signing any lawful and relevant papers, and, at the expense of the Assignee, testifying in any legal proceedings.
